

General

What is Schoology? Schoology is the District's new Learning Management System (LMS). This is the tool for communicating with students and families through teacher pages, posting assignments and information for students, and accepting student assignments, among many other things. Students can access Schoology from any computer or mobile device with Internet access. What is the difference between Schoology, Source, and the District/School website? Schoology is our Learning Management System, where teachers can post course content, provide resources for students, and review assignments. The Source is where parents/guardians, and students go to see their schedule, assessment scores, attendance, library information and *secondary* student grades. The District/School website is our externally-facing web presence for people interested in learning more about our schools and programs. How do I login to Schoology? Teachers and students can login to Schoology using their district username@seattleschools.org and password. To login to Schoology, go to lms.seattleschools.org. Parents and guardians will need to create an account to login to Schoology using an access code. You can find your access code by logging into the Source and selecting Schoology Access Codes from the left menu. Login to the Source by going to <http://ps.seattleschools.org>. Can I use Schoology on a mobile device or tablet? Yes. Apps are available for both iOS and Android devices. Click on the applicable resource for more information: - [iOS Device](#) - [Android Device](#)

Parents

What can parents see in Schoology? Parents can view courses, assignments, and calendars for all their students. Parents cannot view submitted assignments, comments from other children in the class, or assignment grades. I have multiple children in the District. Can I view all my children under my Schoology account? Yes. With Schoology, it's easy to add additional children to your parent account. Here are some [step-by-step instructions](#) on how to add additional children. What do I do if I forget my Schoology password? Please click [here](#) to visit the Schoology Forgot Password resource.

Why can't I change my password? Make sure your name is selected; you may be in your student's account.

Why don't I see + Add Child? Make sure your name is selected, you may be in your student's account.

Why do I only see one school on my right menu? Schoology displays the school of the first student you added to your account when you registered. To see all schools, select All Children from the right menu.

Why don't I see any groups? Your school may not be using groups at this time.

Students

How do I login to Schoology? Login to schoology by using your district username@seattleschools.org. Please note that this does not give you access to email. This is simply your login method. What do I do if I forgot my password? If you have forgotten your password, please contact your school librarian or teacher to have it be reset.
