• Built houses for Mexican families	

## Travel

Europe	Summer 2000
--------	-------------

Helpful tips:

- List your dates chronologically starting with the most recent activity first and working backward.
- If you have more than one current activity within one category, the activity in which you have participated the longest should be listed first. See School Leadership above for an example.
- Try keeping your date columns separate from your other information
- Use formatting techniques (bold, underline, italics, etc) so it is as easy to read as possible.
