Ballard High School Teacher Support Fund

Recognizing that teachers are the foundation of education at Ballard High, the PTSA started a Teacher Support Fund in 2001. The fund is used for small grants to help individual teachers purchase supplies and equipment needed to teach effectively. This quick reaction fund allows our teachers to get what they need promptly, without hassle and without spending their own money on classroom supplies. The Principal fields requests for these monies fund and reports periodically to the PTSA Board on how monies have been used.

What do Teacher Support Fund Monies Get Used For?

The Teacher Support Fund has been a very successful program. Most years, parents contributed a total of more than \$10,000. The funds have been used for a variety of small purchases, including:

- Erasers for classroom whiteboards
- Dictionaries for the classroom of a first-year teacher
- Compasses for a Special Ed project
- Book on Instructional Strategies
- Single book needed for a science class
- Novels for Language Arts and French classes

When you donate to the Ballard High School Teacher Support Fund, you can be assured that your money is targeted for that specific purpose.
